MAUI LAND & PINEAPPLE COMPANY, INC. AND SUBSIDIARIES**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(UNAUDITED)****1. Basis of Presentation**

The accompanying interim unaudited condensed consolidated financial statements have been prepared by Maui Land & Pineapple Company, Inc. (together with its subsidiaries, the "Company") in accordance with U.S. generally accepted accounting principles (GAAP) for interim financial information that are consistent in all material respects with those applied in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2013, and pursuant to the instructions to Form 10-Q and Article 8 promulgated by Regulation S-X of the Securities and Exchange Commission (the "SEC"). Accordingly, they do not include all of the information and notes to financial statements required by GAAP for complete financial statements. In the opinion of management, the accompanying condensed consolidated financial statements contain all normal and recurring adjustments necessary to fairly present the Company's financial position, results of operations and cash flows for the interim periods ended June 30, 2014 and 2013. The condensed consolidated financial statements and notes should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Form 10-K for the fiscal year ended December 31, 2013.

LIQUIDITY

The Company had a net loss of \$0.4 million and generated \$0.7 million of cash from its operating activities during the six months ended June 30, 2014. The Company had an excess of current liabilities over current assets of \$5.5 million and a stockholders' deficiency of \$27.1 million at June 30, 2014.

The Company has outstanding borrowings under two credit facilities that have financial covenants requiring among other things, a minimum of \$3 million in liquidity (as defined), a maximum of \$175 million in total liabilities, and a limitation on new indebtedness. The Company has pledged a significant portion of its real estate holdings as collateral for borrowings under these credit facilities. Both facilities mature on August 1, 2016.

The Company's cash outlook for the next twelve months and its ability to continue to meet its loan covenants is highly dependent on selling certain real estate assets at acceptable prices. If the Company is unable to meet its loan covenants, borrowings under the Company's credit facilities may become immediately due, and the Company would not have sufficient liquidity to repay such outstanding borrowings. In addition, the Company is subject to several commitments and contingencies that could negatively impact its future cash flows, including required funding of the Company's defined benefit pension plans and ongoing legal disputes related to The Residences of Kapalua Bay project. These matters are further described in Notes 11 and 14.

The aforementioned circumstances raise substantial doubt about the Company's ability to continue as a going concern. There can be no assurance that the Company will be able to successfully achieve its initiatives summarized below in order to continue as a going concern. The accompanying condensed consolidated financial statements have been prepared assuming the Company will continue as a going concern and do not include any adjustments that might result should the Company be unable to continue as a going concern.

In response to these circumstances, the Company continues to undertake efforts to generate cash flow by employing its real estate assets in leasing and other arrangements, by the sale of several real estate assets, and by continued cost reduction efforts.

2. Use of Estimates

The Company's reports for interim periods utilize numerous estimates of general and administrative expenses and other costs for the full year. Future actual amounts may differ from the estimates. Amounts in the interim reports are not necessarily indicative of results for the full year.

3. Average Common Shares Outstanding Used to Compute Earnings (Loss) Per Share

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Basic and diluted	18,766,909	18,698,856	18,757,273	18,685,971
Potentially dilutive	71,172	128,591	71,172	128,591

Basic earnings (loss) per share is computed by dividing net loss by the weighted-average number of common shares outstanding. Diluted loss per share is computed similar to basic loss per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the dilutive potential common shares from share-based compensation arrangements had been issued.

Potentially dilutive shares arise from non-qualified stock options to purchase common stock and non-vested restricted stock. The treasury stock method is applied to determine the number of potentially dilutive shares for non-vested restricted stock and stock options assuming that the shares of non-vested restricted stock are issued for an amount based on the grant date market price of the shares and that the outstanding stock options are exercised. These amounts were excluded because the effect would be anti-dilutive.

Less accumulated depreciation	<u>38,257</u>	<u>37,084</u>
Net Property	<u>\$ 39,009</u>	<u>\$ 40,182</u>

Land

Most of the Company's 23,300 acres of land were acquired between 1911 and 1932 and is carried on the consolidated balance sheet at cost. Approximately 21,300 acres of land are located in West Maui and comprise a largely contiguous parcel that extends from the sea to an elevation of approximately 5,700 feet. This parcel includes approximately 900 acres within the Kapalua Resort's 3,000 acres. The Company's remaining land properties are former agricultural fields and processing and maintenance facilities located in Upcountry Maui in an area commonly referred to as Haliimaile.

Land Improvements

Land improvements are comprised primarily of roads, utilities, and landscaping infrastructure improvements at the Kapalua Resort. Also included is the Company's potable and non-potable water system in West Maui. The majority of the Company's land improvements were constructed and placed in service in the mid-to-late 1970s. Depreciation expense would be considerably higher if these assets were stated at current replacement cost.

Buildings

Buildings are comprised of restaurant, retail and light industrial spaces located at the Kapalua Resort and used in the Company's leasing operations. The majority of the buildings were constructed and placed in service in the mid-to-late 1970s. Depreciation expense would be considerably higher if these assets were stated at current replacement cost.

Machinery and Equipment

Machinery and equipment are mainly comprised of zipline course equipment installed in 2008 at the Kapalua Resort and used in the Company's leasing operations. Also included are machinery and equipment used in the Company's utilities operations.

Construction in Progress

Construction in progress is comprised primarily of a potable water well that was drilled and tested in Upcountry Maui but has not been placed into service.

5. Assets Held for Sale and Real Estate Sales

At December 31, 2013, assets held for sale consisted of a 4-acre parcel and building that serves as the maintenance facility for the Kapalua Plantation Golf Course. In May 2014, the Company sold the property for \$2.3 million and recognized a gain of \$1.5 million. The Company utilized \$1.9 million of the proceeds to release the Honolua Store from the collateral held under the Wells Fargo credit facility and \$0.4 million of the proceeds to repay its term loan with American AgCredit.

In June 2013, the Company sold a 7-acre parcel that was the last of its former agricultural processing facilities in central Maui for \$4.0 million. The sale resulted in a gain of \$1.9 million and has been reflected in discontinued operations.

6. Long-Term Debt

Long-term debt at June 30, 2014 and December 31, 2013 consisted of the following:

	June 30, 2014	December 31, 2013
	(in thousands)	
Wells Fargo revolving loans, 3.80%	\$ 29,243	\$ 29,000
American AgCredit term loan, 5.00%	19,533	20,000
Total	48,776	49,000
Less current portion	2,533	49,000
Long-term debt	\$ 46,243	\$ —

WELLS FARGO

The Company has a \$32.7 million revolving line of credit with Wells Fargo that matures on August 1, 2016. Interest on borrowings is at LIBOR plus 3.65% and the line of credit is collateralized by approximately 880 acres of the Company's real estate holdings at the Kapalua Resort. In connection with entering into the First Hawaiian Bank agreement, the Company made a \$1.9 million paydown to release the Honolua Store from the collateral held under this facility. The line of credit agreement contains various representations, warranties, affirmative, negative and financial covenants and events of default customary for financings of this type. Financial covenants include a required minimum liquidity (as defined) of \$3 million, maximum total liabilities of \$175 million, and a limitation on new indebtedness. The credit agreement includes predetermined release prices for the real property securing the credit facility. There are no commitment fees on the unused portion of the revolving facility. Absent the sale of some of its real estate holdings or refinancing, the Company does not expect to be able to pay the outstanding balance of the revolving line of credit on the maturity date.

AMERICAN AGCREDIT

The Company has a \$20 million term loan with American AgCredit that matures on August 1, 2016. Interest on this credit facility is based on the greater of 1.00% or the 30-day LIBOR rate, plus an applicable spread of 4.00% and provides for a reduction in the applicable spread to 3.75% if the principal balance of the loan is reduced to \$15 million. The loan agreement requires that the principal balance be paid down to \$17 million by May 1, 2015 and to \$15 million by May 1, 2016. The loan agreement contains various representations, warranties, affirmative, negative and financial covenants and events of default customary for financings of this type. Financial covenants include a required minimum liquidity (as defined) of \$3 million, maximum total liabilities of \$175 million and a limitation on new indebtedness. It also requires mandatory principal repayments of 100% of the net proceeds of the sale of any real property pledged as collateral for the loan and mandatory principal repayments based on predetermined percentages of 60% to 75% of the net proceeds from the sale of non-collateralized real property. The loan is collateralized by approximately 3,100 acres of the Company's real estate holdings in West Maui and Upcountry Maui. Absent the sale of some of its real estate holdings or refinancing, the Company does not expect to be able to pay the outstanding balance under the term loan on the maturity date.

FIRST HAWAIIAN BANK

In June 2014, the Company entered into a credit agreement with First Hawaiian Bank providing the Company with a \$3.5 million revolving line of credit for general working capital and corporate purposes. The agreement expires on June 5, 2015. Borrowings under the revolving line of credit bear interest at the Bank's Prime Rate and the credit facility is collateralized by an approximately 1.1 acre property and building in the Kapalua Resort commonly known as the Honolua Store. As of June 30, 2014, there were no borrowings outstanding under this revolving line of credit.

As of June 30, 2014, the Company believes it is in compliance with the covenants under its Wells Fargo, American AgCredit and First Hawaiian Bank credit facilities.

7. Discontinued Operations

The Company ceased spa operations in June 2013 and beach club operations in September 2013 in conjunction with the conclusion of The Residences at Kapalua Bay foreclosure proceedings and settlement. In September 2011, the Company ceased all retail operations at the Kapalua Resort. In March 2011, the Company ceased operating the two championship golf courses at the Kapalua Resort. In December 2009, the Company ceased all agriculture operations. Accordingly, the operating results including any gains or losses from the disposal of assets related to these former operations have been reported as discontinued operations in the accompanying consolidated financial statements.

Revenues and income (loss) from discontinued operations were as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
	(in thousands)		(in thousands)	
Revenues

Income Taxes	-	116	-	116
Total	\$ (25)	\$ 2,105	\$ (81)	\$ 1,896

Income from discontinued operations for the three and six months ended June 30, 2013 included a \$1.9 million gain from the sale of a 7-acre parcel in Kahului which was part of the Company's former agricultural processing facilities. The sale proceeds were reflected under investing activities in the Company's condensed consolidated statements of cash flows.

8. Recently Issued Accounting Pronouncements

In July 2013, the FASB issued Accounting Standards Update (ASU) No. 2013-11, *Income Taxes (Topic 740)—Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists*. This ASU requires unrecognized tax benefits, or a portion of an unrecognized tax benefit, to be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, except when such a loss or credit carryforward is not available at the reporting date, in which case the unrecognized tax benefit should be presented as a liability. The amendments in this ASU should be applied prospectively, and are effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. The adoption of this guidance did not have a material impact on the Company's condensed consolidated financial statements.

In April 2014, the FASB issued ASU No. 2014-08, *Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360)—Reporting Discontinued Operations and Disclosures of Disposals of an Entity*. This ASU changes the criteria for reporting discontinued operations where only disposals representing a strategic shift in operations should be presented as discontinued operations. Additionally, the new guidance requires expanded disclosures that will provide financial statement users with more information about the discontinued operations assets, liabilities, income, expenses and pre-tax income. The amendments in this ASU may be early adopted, but only for disposals (or classifications held for sale) that have not been reported in financial statements previously issued. The amendments in the ASU should be applied prospectively for annual periods beginning on or after December 15, 2014, and interim periods within those years. The adoption of this guidance is not expected to have a material impact on the Company's condensed consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*. This ASU supersedes the previous revenue recognition guidance in Accounting Standards Codification ("ASC") Topic 606, *Revenue Recognition*, and requires that an entity use the defined five step process to recognize revenue. The ASU also requires additional disclosures and is effective for annual periods beginning after December 15, 2016, including interim periods within that reporting period. Early implementation is not permitted. Upon adoption, the Company will have the option of retrospectively applying the guidance to each reporting period presented with certain practical expedients or retrospectively reporting the cumulative effect of the initially applying the ASU at the date of initial application with additional disclosure requirements. The Company has not yet determined the effect this ASU will have on its condensed consolidated financial statements.

In June 2014, the FASB issued ASU No. 2014-12, *Compensation-Stock Compensation – Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved After the Requisite Service Period*. This ASU requires that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition under the existing guidance of ASC Topic 718, as it relates to vesting of such awards. The performance target should not be reflected in estimating the grant-date fair value of the award, and compensation cost should be recognized in the period in which it becomes probable that the performance target will be achieved and should represent the compensation cost attributable to the period(s) for which the requisite service has already been rendered. The amendments can be applied prospectively to all awards granted or modified after the effective date or retrospectively to all awards with performance targets that are outstanding as of the beginning of the earliest annual period presented in the financial statements with a cumulative effect adjustment to the opening retained earnings balance. The ASU will be effective for annual and interim reporting periods beginning after December 15, 2015 with early adoption permitted. The Company has not yet determined the effect this ASU will have on its condensed consolidated financial statements.

9. Accrued Contract Terminations

In November 2013, the Company and the other parties involved in The Residences at Kapalua Bay development project reached a comprehensive settlement with respect to numerous issues and disputes surrounding the project. As part of its portion of the settlement, the Company committed to pay \$0.6 million over the next four years for the annual dues of the 132 releasing fractional owners, of which \$0.5 million remained outstanding as of June 30, 2014. In addition, the Company agreed to pay \$29,000 monthly for continued access to the Kapalua Spa and Beach Club for its Kapalua Club members.

10. Share-Based Compensation

The total compensation expense recognized for share-based compensation was \$112,000 and \$106,000 for the three months ended June 30, 2014 and 2013, respectively, and \$211,000 and \$215,000 for the six months ended June 30, 2014 and 2013, respectively. There was no tax benefit or expense related thereto for each period presented. Recognized stock compensation was reduced for estimated forfeitures prior to vesting primarily based on historical annual forfeiture rates of approximately 0% and 3.0%, as of June 30, 2014 and 2013, respectively. Estimated forfeitures will be reassessed in subsequent periods and may change based on new facts and circumstances. Executive officers and management were awarded an incentive bonus of \$218,000 and \$133,100 in February 2014 and 2013, respectively, based on meeting certain performance metrics included in the Company's Executive and Key Management Compensation Plan. In accordance with the plan, the incentive award was paid by issuance of 35,917 and 33,187 shares of common stock in February 2014 and 2013, respectively.

Stock Options

A summary of stock option award activity as of and for the six months ended June 30, 2014 is as follows:

	Shares	Weighted Average Exercise Price	Weighted Average Grant-Date Fair Value	Weighted Average Remaining Contractual Term (years)	Aggregate Intrinsic Value \$(000)(1)

(1) For in-the-money options

(2) Options expected to vest reflect estimated forfeitures

There were no stock options granted or exercised during the six months ended June 30, 2014 or 2013. The fair values of shares vested were \$12,000 for the six months ended June 30, 2014 and 2013. As of June 30, 2014, there was no unamortized compensation expense for awards granted under the stock option plans that are expected to be recognized over a weighted average period of one year.

Restricted Stock

During the six months ended June 30, 2014, 34,919 shares of restricted stock vested as directors' and management service requirements were met.

A summary of the activity for nonvested restricted stock awards as of and for the six months ended June 30, 2014 is as follows:

	Shares	Weighted Average Grant-Date Fair Value
Nonvested balance at December 31, 2013	31,795	\$ 5.79
Granted	14,896	\$ 8.06

11. Components of Net Periodic Benefit Cost

The net periodic benefit costs for pension benefits for the three and six months ended June 30, 2014 and 2013 were as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
	(in thousands)			
Interest cost	\$ 772	\$ 720	\$ 1,544	\$ 1,440
Expected return on plan assets	(777)	(726)	(1,554)	(1,452)
Recognized actuarial loss	146	228	292	456
Net expense	<u>\$ 141</u>	<u>\$ 222</u>	<u>\$ 282</u>	<u>\$ 444</u>

The Company's cessation of its pineapple operations at the end of 2009 and the corresponding reduction in the active participant count for the Pension Plan for Bargaining Unit and Hourly Employees ("Bargaining Plan") triggered the requirement that the Company provide security to the Pension Benefits Guaranty Corporation ("PBGC") of approximately \$5.2 million to support the unfunded liabilities of the Bargaining Plan. In April 2011, the Company executed a settlement agreement with the PBGC and pledged as security approximately 1,400 acres of former agricultural lands in West Maui that will be released in five years if the Company does not otherwise default on the agreement. No formal appraisal or determination of the fair value of the 1,400 acres was performed by the Company or the PBGC in connection with the settlement agreement.

The Company was advised in October 2011 that the cessation of its golf operations and the corresponding reduction in the active participant count for the Bargaining Plan and the Pension Plan for Non-Bargaining Unit Employees triggered the requirement that the Company provide additional security to the PBGC of approximately \$18.7 million to support the unfunded liabilities of the two pension plans or to make contributions to the plans in excess of the minimum required amounts. In November 2012, the Company executed a settlement agreement with the PBGC and pledged security of approximately 7,000 acres of former agricultural lands in West Maui that will be released in five years if the Company does not otherwise default on the agreement. No formal appraisal or determination of the fair value of the 7,000 acres was performed by the Company or the PBGC in connection with the settlement agreement.

In June 2013, the State of Hawaii enacted a bill directing the Department of Land and Natural Resources ("DLNR"), in consultation with the Hawaiian Islands Land Trust, to engage in the purchase of an approximately 270-acre parcel of former agricultural land in West Maui, known as Lipoa Point, from the Company. The bill further requires the DLNR to ensure to the maximum extent practicable that the Company uses the proceeds of the sale to benefit the Company's defined benefit pension plans. As of June 30, 2014, the Company had unfunded pension fund liabilities of \$20.6 million. The Lipoa Point property is included in the 7,000 acres of former agricultural lands pledged to the PBGC. The passage of the bill does not obligate the DLNR to purchase the property or obligate the Company to sell the property. Any such sale would be subject to negotiation between the parties, including the purchase price. There is no certainty that any such sale will take place, and even if it does, the amount by which the Company's unfunded pension fund liabilities would be reduced is uncertain. Any such reduction may not be sufficient to release the security interest on any of the Company's other West Maui real estate holdings pledged as security to the PBGC.

The minimum required contributions to the Company's defined benefit pension plans in 2014 are estimated to be \$2.8 million, \$0.5 million of which has been paid as of June 30, 2014.

12. Income Taxes

The effective tax rate for 2014 and 2013 reflects the recognition of expected federal alternative minimum tax liabilities and interim period tax benefits and changes to the tax valuation allowance.

The Company uses a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. Interest accrued related to unrecognized tax benefits is recognized as interest expense and penalties are recognized in general and administrative expense in the Company's condensed consolidated statements of operations and comprehensive loss; and such amounts are included in income taxes payable on the Company's condensed consolidated balance sheets.

In April 2013, the Company and the Internal Revenue Service ("IRS") arrived at a settlement which concluded the IRS examination of the Company's federal income tax returns for 2003 through 2008. Under terms of the settlement, the Company agreed to pay \$1.8 million to the IRS, of which \$1.0 million was paid as of June 30, 2014.

13. Operating Segment Information

The Company's presentation of its reportable operating segments is consistent with how the Company's chief operating decision maker determines the allocation of resources. Reportable segments are as follows:

- Real Estate includes the development and sale of real estate inventory and the operations of Kapalua Realty Company, a general brokerage real estate company located within the Kapalua Resort.
- Leasing primarily includes revenues and expenses from real property leasing activities, license fees and royalties for the use of certain of the Company's trademarks and brand names by third parties, and the cost of maintaining the Company's real estate assets, including conservation activities.
- Utilities primarily include the operations of Kapalua Water Company and Kapalua Waste Treatment Company, the Company's water and sewage transmission operations (regulated by the Hawaii Public Utilities Commission) servicing the Kapalua Resort. The operating segment also includes the management of ditch, reservoir and well systems that provide non-potable irrigation water to West and Upcountry Maui areas.
- Resort Amenities include a membership program that provides certain benefits and privileges within the Kapalua Resort for its members.

Financial results for each of the Company's reportable segments for the three and six months ended June 30, 2014 and 2013 were as follows:

14. Commitments and Contingencies

Discontinued Operations

On April 19, 2011, a lawsuit was filed against the Company's wholly owned subsidiary Maui Pineapple Company, Ltd. ("MPC") and several other Hawaii based farms by the Equal Employment Opportunity Commission ("EEOC"). The lawsuit alleged the farms should be held liable for illegal acts by Global Horizons, Inc., a company that had hired Thai workers to work at the farms. The lawsuit was filed in the United States District Court, District of Hawaii, as Civil Action No. 11-00257. On June 13, 2013, the EEOC filed a motion to add as defendants Maui Land & Pineapple Company, Inc. and Hali'imaile Pineapple Company, Ltd. On September 10, 2013, the Court denied the EEOC's motion. On June 30, 2014, in light of MPC's inability to fund its defense, the parties entered into a stipulated default judgment in favor of the EEOC and against MPC. MPC is unable to estimate the amount, or range of amounts, of any liability related to this matter.

Pursuant to a 1999 settlement agreement with the County of Maui, the Company and several chemical manufacturers have agreed that until December 1, 2039, they will pay for 90% of the capital costs to install filtration systems in any future water wells if the presence of a nematocide, commonly known as DBCP, exceeds specified levels, and for the ongoing maintenance and operating cost for filtration systems on existing and future wells. The Company estimated its share of the cost to operate and maintain the filtration systems for the existing wells, and its share of the cost of a letter of credit used to secure its obligations, and as of June 30, 2014 has recorded a reserve for environmental liability of \$59,000. The Company is presently not aware of any plans by the County of Maui to install other filtration systems or to drill any water wells in areas affected by agricultural chemicals. Accordingly, a reserve for costs relating to any future wells has not been recorded because the Company is not able to reasonably estimate the amount of liability, if any.

Kapalua Bay

On May 23, 2011, a lawsuit was filed against multiple parties including the Company by purchasers of two units at the project formerly known as The Ritz-Carlton Residences at Kapalua Bay. The lawsuit was filed in the Circuit Court of the Second Circuit, State of Hawaii pursuant to Civil No. 11-1-0216-(3). The lawsuit alleges deceptive acts, intentional misrepresentation, concealment, and negligent misrepresentation, among other allegations with regard to the sale of the two residential units and seeks unspecified damages, treble damages and other relief. The Company disagrees with the allegations and is defending itself. The Company is presently unable to estimate the amount, or range of amounts, of any probable liability, if any, related to this matter and no provision has been made in the accompanying condensed consolidated financial statements.

On June 7, 2012, a group of owners of 12 whole-ownership units at the project formerly known as The Ritz-Carlton Club and Residences, Kapalua Bay filed a lawsuit against multiple parties including the Company. The lawsuit alleges the defendants breached their fiduciary duties to the Plaintiffs and have allowed the project formerly known as The Ritz-Carlton Club and Residences, Kapalua Bay to fall into disarray. The Company believes it has not been involved in any wrongdoing, disagrees with the charges and is defending itself. The Company is presently unable to estimate the amount, or range of amounts, of any probable liability, if any, related to this matter and no provision has been made in the accompanying condensed consolidated financial statements.

On June 19, 2013, a lawsuit was filed against multiple parties including the Company by several owners of timeshare condominium interests in the project formerly known as The Ritz-Carlton Residences at Kapalua Bay ("Fractional Interests"). The lawsuit was filed in the Circuit Court of the Second Circuit, State of Hawaii, pursuant to Civil No. 13-1-0640-(2). The lawsuit alleges unfair and deceptive trade practices, negligent misrepresentations, omissions, concealment, and fraud in the inducement among other allegations with regards to the marketing and sales of certain Fractional Interests and seeks unspecified damages, treble damages and other relief. The Company disagrees with the allegations and is defending itself. The Company is presently unable to estimate the amount, or range of amounts, of any probable liability, if any, related to this matter and no provision has been made in the accompanying condensed consolidated financial statements.

In addition to the matters noted above, there are various other claims and legal actions pending against the Company. In the opinion of management, after consultation with legal counsel, the resolution of these other matters is not expected to have a material adverse effect on the Company's financial position or results of operations.

15. Fair Value Measurements

GAAP establishes a framework for measuring fair value, and requires certain disclosures about fair value measurements to enable the reader of the financial statements to assess the inputs used to develop those measurements by establishing a hierarchy for ranking the quality and reliability of the information used to determine fair values. GAAP requires that financial assets and liabilities be classified and disclosed in one of the following three categories:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs that are not corroborated by market data.

The fair value of cash, receivables and payables approximate their carrying value due to the short-term nature of the instruments. The valuation is based on settlements of similar financial instruments all of which are short-term in nature and are generally settled at or near cost. The fair value of debt was estimated based on borrowing rates currently available to the Company for debt with similar terms and maturities. The carrying amount of debt at June 30, 2014 and December 31, 2013 was \$48,776,000 and \$49,000,000, respectively, which approximated fair value. The fair value of cash and debt was determined using level 1 and level 2 measurements, respectively.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our audited consolidated financial statements and related notes included in our Annual Report on Form 10-K for the year ended December 31, 2013 and the unaudited condensed consolidated financial statements and related notes included in this Quarterly Report on Form 10-Q. Depending upon the context, the terms the "Company," "we," "our," and "us," refer to either Maui Land & Pineapple Company, Inc. alone, or to Maui Land & Pineapple Company, Inc. and its subsidiaries collectively.

Overview of the Company

Maui Land & Pineapple Company, Inc. is a Hawaii corporation and the successor to a business organized in 1909. The Company consists of a landholding and operating parent company, its principal subsidiary, Kapalua Land Company, Ltd. and certain other subsidiaries of the Company.

We own approximately 23,300 acres of land on Maui and develop, sell, and manage residential, resort, commercial, and industrial real estate through the following business segments:

- *Real Estate*—Our real estate operations consist of land planning and entitlement, development, and sales.
- *Leasing*—Our leasing activities include commercial, industrial and agricultural land and facilities leases, licensing of our registered trademarks and trade names, and stewardship and conservation efforts.
- *Utilities*—We operate two publicly-regulated utility companies which provide potable and non-potable water and sewage transmission services to the Kapalua Resort. In addition, we also manage ditch, reservoir and well systems which provide non-potable irrigation water to West and Upcountry Maui areas.
- *Resort Amenities*—Within the Kapalua Resort, we manage a private, non-equity club program.

Critical Accounting Policies and Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of accounting estimates. Changes in these estimates and assumptions are considered reasonably possible and may have a material effect on the consolidated financial statements and thus actual results could differ from the amounts reported and disclosed herein. Our critical accounting policies that require the use of estimates and assumptions were discussed in detail in our most recently filed Form 10-K. There have been no significant changes in our critical accounting policies during the first six months of 2014.

There are no accounting pronouncements or interpretations that have been issued but not yet applied by us that we believe will have a material impact on our consolidated financial statements.

RESULTS OF OPERATIONS

<i>Net Income(Loss) Per Common Share</i>	\$ 0.03	\$ 0.04	\$ (0.02)	\$ (0.05)

We reported net income of \$0.5 million or \$0.03 per share during the three months ended June 30, 2014 compared to net income of \$0.8 million or \$0.04 per share for the same period in 2013.

The increase in operating revenues for the three and six months ended June 30, 2014 was primarily due to \$2.3 million sale of a 4-acre parcel and building that serves as the maintenance facility for the Kapalua Plantation Golf Course. The sale resulted in a gain of \$1.5 million.

The increase in interest expense for the three months ended June 30, 2014 was due to an \$181,000 dividend from AgCredit that was received in May 2013. The decrease in interest expense for the six months ended June 30, 2014 was due to lower interest rates on outstanding borrowings under our two credit facilities.

Income from discontinued operations for the three and six months ended June 30, 2013 included a \$1.9 million gain from the sale of a 7-acre parcel that was part of our former agricultural processing facilities in central Maui.

<i>Operating Income (Loss)</i>	\$ 1,099	\$ (537)	\$ 763	\$ (1,028)

The increase in operating revenues for the three and six months ended June 30, 2014 was primarily due to \$2.3 million sale of a 4-acre parcel and building that serves as the maintenance facility for the Kapalua Plantation Golf Course. The sale resulted in a gain of \$1.5 million. Also included in operating revenues in this segment were real estate commissions from resales of properties owned by private residences in the Kapalua Resort and surrounding areas by our wholly-owned subsidiary, Kapalua Realty Company, Ltd.

Real estate development and sales are cyclical and depend on a number of factors. Results for one period are therefore not necessarily indicative of future performance trends in this segment.

We have contracted a third-party property management company to manage our commercial leasing portfolio. The increase in operating income during the three and six months ended June 30, 2014 compared to the same periods in 2013 was primarily due to costs and lost revenues associated with the termination of our zipline operator in February 2013. The zipline resumed its operations in December 2013 with a new operator.

In January 2014, our Honolua Store lessee completed a \$5.0 million renovation of the Honolua Store. Other West Maui leasable properties are mainly large-acre former pineapple field parcels and maintenance facilities.

Our leasing operations face substantial competition from other property owners in Maui and Hawaii.

We have contracted a water maintenance company to manage our non-potable irrigation water systems in West and Upcountry Maui.

The decrease in operating revenues during the three and six months ended June 30, 2014 was primarily due to a decrease in sales of potable and non-potable water resulting from rainier weather conditions in Maui as compared to the prior year period.

We ceased operating the spa and beach club in conjunction with the conclusion of the Residences at Kapalua Bay foreclosure proceeding in June 2013. The increase in operating costs and expenses during the three and six months ended June 30, 2014 compared to the prior year period is due to \$29,000 monthly payments for members' access to the Kapalua Spa and Beach Club.

<i>General and Administrative</i>	\$ 671	\$ 708	\$ 1,082	\$ 1,419

General and administrative expenses are incurred at the corporate level and at the operating segment level. Results of operations presented above for each of the business segments include an allocation of a portion of general and administrative expenses incurred at the corporate level. Such allocations are made on the basis of our evaluation of the level of services provided to each of the business segments. The decrease in general and administrative expenses during the six months ended June 30, 2014 was primarily due to a change in estimated uncertain tax positions.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity

At June 30, 2014, our total debt was \$48.8 million, compared to \$49.0 million at December 31, 2013, and we had approximately \$0.2 million in cash and cash equivalents. Cash provided by operating activities was \$0.7 million for the six months ended June 30, 2014. At June 30, 2014, we had a deficiency in stockholders' equity (total liabilities exceeded total assets) of \$27.1 million.

Revolving Line of Credit with Wells Fargo

We have a \$32.7 million revolving line of credit with Wells Fargo that matures on August 1, 2016. Interest on borrowings is at LIBOR plus 3.65% and the line of credit is collateralized by approximately 880 acres of the Company's real estate holdings at the Kapalua Resort. In connection with entering into the First Hawaiian Bank agreement, we made a \$1.9 million paydown to release the Honolua Store from the collateral held under this facility. The line of credit agreement contains various representations, warranties, affirmative, negative and financial covenants and events of default customary for financings of this type. Financial covenants include a required minimum liquidity (as defined) of \$3 million, maximum total liabilities of \$175 million, and a limitation on new indebtedness. The credit agreement includes predetermined release prices for the real property securing the credit facility. There are no commitment fees on the unused portion of the revolving facility. Absent the sale of some of our real estate holdings or refinancing, we do not expect to be able to pay the outstanding balance of the revolving line of credit on the maturity date. As of June 30, 2014, we had \$29.2 million of borrowings outstanding under our revolving line of credit.

Term Loan with American AgCredit

We have a \$20 million term loan with American AgCredit that matures on August 1, 2016. The interest on this credit facility is based on the greater of 1.00% or the 30-day LIBOR rate, plus an applicable spread of 4.00% and provides for a reduction in the applicable spread to 3.75%, if the principal balance of the loan is reduced to \$15 million. The loan agreement requires that the principal balance be paid down to \$17 million by May 1, 2015 and to \$15 million by May 1, 2016. The loan agreement contains various representations, warranties, affirmative, negative and financial covenants and events of default customary for financings of this type. Financial covenants include a required minimum liquidity (as defined) of \$3 million, maximum total liabilities of \$175 million and a limitation on new indebtedness. It also requires mandatory principal repayments of 100% of the net proceeds of the sale of any real property pledged as collateral for the loan and mandatory principal repayments based on predetermined percentages of 60% to 75% of the net proceeds from the sale of non-collateralized real property. The loan is collateralized by approximately 3,100 acres of the Company's real estate holdings in West Maui and Upcountry Maui. Absent the sale of some of our real estate holdings or refinancing, we do not expect to be able to pay the outstanding balance under the term loan on the maturity date.

Revolving Line of Credit with First Hawaiian Bank

In June 2014, we entered into a credit agreement with First Hawaiian Bank providing us with a \$3.5 million revolving line of credit for general working capital and corporate purposes. The agreement matures on June 5, 2015. Borrowings under the revolving line of credit bear interest at the Bank's Prime Rate and the credit facility is secured by an approximately 1.1 acre property and building in the Kapalua Resort commonly known as the Honolua Store. As of June 30, 2014, we had no borrowings outstanding under this revolving line of credit.

As of June 30, 2014, we believe we are in compliance with the covenants under our Wells Fargo, American AgCredit and First Hawaiian Bank credit facilities.

Cash Flows

During the first six months of 2014, consolidated net cash provided by operating activities was \$0.7 million compared to net cash used of \$3.1 during the first six months of 2013. The decrease in net cash used in operating activities was primarily due to \$2.3 million sale of a 4-acre parcel and building that serves as the maintenance facility for the Kapalua Plantation Golf Course, lower contributions to our defined benefit pension plans and lower costs associated with defending various claims and legal actions pending against the Company. For the first six months of 2014 and 2013, debt modification fees of \$361,000 and \$248,000 were included in financing activities, respectively.

Future Cash Inflows and Outflows

Our plans for 2014 include the possible sale of certain operating and non-operating real estate assets that could result in net cash proceeds which would be partially used to repay outstanding indebtedness and for general working capital. There can be no assurance that we will be able to sell any of our real estate assets on acceptable terms, if at all.

Our cash outlook for the next twelve months and our ability to continue to meet our loan covenants and to continue as a going concern is highly dependent on successfully implementing our business initiatives and selling real estate assets at acceptable prices. If we are unable to meet our loan covenants resulting in our loan borrowings becoming immediately due, we would not have sufficient liquidity to repay such outstanding borrowings.

We are subject to several commitments and contingencies that could negatively impact our future cash flows, including required funding of our defined benefit pension plans and ongoing legal disputes related to the Kapalua Bay project. The aforementioned circumstances raise substantial doubt about our ability to continue as a going concern. There can be no assurance that we will be able to successfully achieve the initiatives discussed below in order to continue as a going concern.

In response to these circumstances, we continue to undertake significant efforts to generate cash flow by employing our real estate assets in leasing and other arrangements, by the sale of several real estate assets and by continued cost reduction efforts.

In June 2013, the State of Hawaii enacted a bill directing the DLNR, in consultation with the Hawaiian Islands Land Trust, to engage in the purchase of an approximately 270-acre parcel of former agricultural land in West Maui, known as Lipoa Point, from the Company. The bill further requires the DLNR to ensure to the maximum extent practicable that we use the proceeds of the sale to fund our defined benefit pension plans. The passage of the bill does not obligate the DLNR to purchase the property or obligate us to sell the property. Any such sale would be subject to negotiation between the parties, including the purchase price. There is no certainty that any such sale will take place, and even if it does, the amount by which our unfunded pension fund liabilities would be reduced is uncertain.

Contributions to our defined benefit pension plans are expected to be approximately \$2.8 million in 2014.

Our current development activities are limited to planning, permitting and other efforts to secure and maintain project entitlements.

FORWARD-LOOKING STATEMENTS AND RISKS

This and other reports filed by us with the Securities and Exchange Commission, or SEC, contain forward-looking statements intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. These statements relate to future events or our future financial performance and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to differ materially from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. These statements can be identified by the fact that they do not relate strictly to historical or current facts. They contain words such as “may,” “will,” “project,” “might,” “expect,” “believe,” “anticipate,” “intend,” “could,” “would,” “estimate,” “continue” or “pursue,” or the negative or other variations thereof or comparable terminology. Actual results could differ materially from those projected in forward-looking statements as a result of the following factors, among others:

- unstable macroeconomic market conditions, including, but not limited to, energy costs, credit markets and changes in income and asset values;
- risks associated with real estate investments generally, and more specifically, demand for real estate and tourism in Hawaii;
- risks due to joint venture relationships;
- our ability to complete land development projects within forecasted time and budget expectations, if at all;
- our ability to obtain required land use entitlements at reasonable costs, if at all;
- our ability to compete with other developers of luxury real estate in Maui;
- potential liabilities and obligations under various federal, state and local environmental regulations with respect to the presence of hazardous or toxic substances;
- changes in weather conditions or the occurrence of natural disasters;
- our ability to maintain the listing of our common stock on the New York Stock Exchange;
- our ability to comply with funding requirements for our defined benefit pension plans;
- our ability to comply with the terms of our indebtedness, including the financial covenants set forth therein, and to extend maturity dates, or refinance such indebtedness, prior to its maturity dates;
- our expectation, absent the sale of some of our real estate holdings or refinancing, that we do not expect to be able to pay any significant amount of our debt;
- our ability to raise capital through the sale of certain real estate assets; and
- availability of capital on terms favorable to us, or at all.

Such risks and uncertainties also include those risks and uncertainties discussed in the sections entitled “Business,” “Risk Factors,” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our Annual Report on Form 10-K for the year ended December 31, 2013 and the section entitled “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Risk Factors” in this Quarterly Report on Form 10-Q, as well as other factors described from time to time in our reports filed with the SEC. Although we believe that our opinions and expectations reflected in the forward-looking statements are reasonable as of the date of this report, we cannot guarantee future results, levels of activity, performance or achievements, and our actual results may differ substantially from the views and expectations set forth in this report. Thus, you should not place undue reliance on any forward-looking statements. New factors emerge from time to time, and it is not possible for us to predict which factors will arise. In addition, we cannot assess the impact of each factor on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Further, any forward-looking statements speak only as of the date made and, except as required by law, we undertake no obligation to publicly revise our forward-looking statements to reflect events or circumstances that arise after the date of this report.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are not required to provide disclosure in response to Part 1: Item 3 of Form 10-Q because we are considered to be a “smaller reporting company.”

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

In designing and evaluating the disclosure controls and procedures, our management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and our management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As required by Rules 13a-15(e) and 15d-15(e) under the Exchange Act, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the fiscal quarter covered by this report. Based upon the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed by us in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in applicable SEC rules and forms.

PART II OTHER INFORMATION

Item 1A. Risk Factors

Potential risks and uncertainties include, among other things, those factors discussed in the sections entitled “Business,” “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our Annual Report on Form 10-K for the year ended December 31, 2013 and the section entitled “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in this Quarterly Report on Form 10-Q. Readers should carefully review those risks and the risks and uncertainties disclosed in other documents we file from time to time with the SEC. We undertake no obligation to publicly release the results of any revisions to any forward-looking statements to reflect anticipated or unanticipated events or circumstances occurring after the date of such statements.
