

JOB OPENING

Title of Position	Watershed Field Technician I
Position Type	Full-time. May need to work overtime and weekends, as required
Location:	Kapalua, HI

This position is responsible for the preservation, conservation and maintenance of plantation watershed capacities and natural resources. This is accomplished by involvement in programs of feral ungulate control, weed control, small mammal & invertebrate control, public (e.g. hunter) awareness & access, public outreach, native planting, research, monitoring.

The Watershed Field Technician I prepares for and completes overnight field trips to accomplish work goals set by the Watershed Supervisor throughout the year in accordance with the Watershed Management Plan. The Watershed Field Technician I works closely with the Watershed Supervisor and/or other Watershed Field Technician(s) to implement planned programs designed to protect the natural diversity of native flora and fauna within the Watershed boundaries. This is a full-time position and may need to work overtime and weekends, as required.

Description of Responsibilities:

- Carry out day-to-day alien animal and weed control tasks.
- Gather and record reliable field data to support watershed monitoring and research.
- Construct and maintain fences, boardwalks, remote shelters, and helicopter landing platforms.
- Maintain watershed roads and trails, equipment, supplies/materials, facilities, services, and communication systems as needed.
- Install and maintain snare, trap and/or bait lines.
- Install and monitor vegetation transect lines.
- Protect and propagate rare and native plants.
- Coordinate and communicate with supervisor and/or other Field Technicians work progress, and supply/equipment/service needs.
- Provide accurate account of job cost receipts for goods and services for department budgeting purposes.
- Communicate and interact with various government agencies, partnerships, outside contractors, and volunteers.
- May be required to supervise 0-5 Volunteers (occasionally).
- Complete other task related to the department and company operations as requested.

Required Qualifications

Education/Training/Experience

- High school diploma or equivalent
- Must possess valid driver's license
- Familiarity with outdoors and camping in wilderness areas

Abilities/Knowledge/Skills

- Ability to work and camp in remote wilderness areas and rugged terrain under inclement weather conditions for five (5) days and four (4) nights at a time by foot and/or helicopter
- Able to lift and carry 60 pounds and hike with 60-pound backpack for 10 miles in wilderness areas and rugged terrain
- Must have good eye-sight, depth perception, color vision, eye-hand-foot coordination.
- Good mathematical skills for computing and measuring
- Must have good communication (oral and written) and interpersonal skills to work with a wide variety of people and agencies.
- Must have high level of awareness/alertness of surroundings and situations

Job Opening – Watershed Field Technician I
